CGH Health Foundation Offering Year-Round "Two-for-One Tuesday" Mammogram Program

Do you know someone who needs a mammogram but can't afford it? Due to the success of October's program, the CGH Health Foundation's Women's Cancer Prevention Program will now offer its "Two-for-One" Mammogram Program year-round! On the first Tuesday of every month, between 8 a.m. and 4:30 p.m., the "Two-for-One Tuesday" Mammogram Program will be offered by calling (815) 535-1389.

Here's how it works: if you are age 40 or older, have insurance that pays for your mammogram, and you are due for a mammogram in the following month, ask a friend, family member, or coworker, who does not have insurance or who has a high deductible, to take part in this special. When you call (815) 535-1389 on the first Tuesday of the month, between 8 a.m. and 4:30 p.m., a Registered Nurse volunteer will ask for your name, address, phone number, physician, when you had your last mammogram and where, and what insurance you have. At that time she will also ask you for the name and phone number of the person that you are calling to sponsor. The volunteer will contact the person that you are sponsoring and, if she is eligible, will take care of getting her set up for a mammogram.

A woman's risk for breast cancer

increases with age. The American Cancer Society has continued to recommend that women age 40 and older have a screening mammogram every year and should continue to do so for as long as they are in good health. Mammograms save lives by helping doctors find cancer in its earliest stages. Digital mammography has made early detection even more likely. CGH Medical Center offers digital mammography, which allows the radiologists to enhance, magnify, or otherwise manipulate the image in order to make a more accurate diagnosis.

The CGH Health Foundation is dedicated to enriching the quality of life for our area community members and generations to come. It is the philanthropic 501(c)3 orga-

nization for all charitable contributions made to CGH Medical Center. Nearly \$1-million has been spent on health-related programs, patient services and medical equipment in the last decade. The CGH Health Foundation's Women's Cancer Prevention Program is a year-round project which provides financial assistance for eligible individuals for mammograms, Pap exams, and physician visits, along with breast and gynecologic health education.

The "Two-for-One Tuesday" Mammogram Program is partially funded through the generosity of the CGH Health Foundation, Team Underwires and The Voucher Programs, which are funded by a grant from Susan G. Komen for the Cure, Quad Cities Affiliate.

USDA Announces DELAP of \$4.6 Million to Struggling Illinois Dairies

USDA's Farm Service Agency (FSA) in Illinois announces the implementation of the new Dairy Economic Loss Assistance Payment (DELAP) program. The 2010 Agricultural Appropriations Bill authorized \$290 million for loss assistance payments to eligible dairy producers.

"The dairy industry has been impacted significantly during these tough economic times," said Scherrie V. Giamanco, State Executive Director of FSA in Illinois. "This new program will assist in providing some relief to the dairy industry in Illinois and across the nation."

Milk prices declined substantially through early-to-mid-2009, with the national price for milk averaging \$16.80 per hundredweight (cwt.) in the fourth quarter of 2008 and averaging \$12.23 per cwt. in the first quarter of 2009, a 27-percent decline. On average, the price U.S. dairy producers received for milk marketed in the summer of 2009 was about half of what it cost to produce milk.

"I have witnessed first-hand the power of FSA's delivery system with over \$4.6 million direct deposited into Illinois farmers' bank accounts through the program," said Giamanco. "Illinois' dedicated FSA employees deserve a great deal of credit in the delivery of this critical assistance to farmers."

Eligible producers will receive

a one-time direct payment based on the amount of milk both produced and commercially marketed by their operations during the months of February through July 2009.

Dairy producers who have production records at USDA Farm Service Agency (FSA) county offices, because they participated in another FSA dairy program, do not need to apply for the program. FSA will use existing production records for February through July 2009 to calculate and issue their payments.

Producers who have not provided production data for those months to FSA, and have not already been contacted by FSA to provide such data, have 30 days, until Jan. 19, 2010, to apply. FSA officials estimate that more than 95 percent of eligible producers will receive benefits without having to complete new applications.
